PermaStripe®

THE WORLD'S TOUGHEST
AISLE MARKING SYSTEM
INSTANTLY APPLIED WITH NO FUSS

HESKINS

ANTI-SLIP SOLUTIONS

PermaStripe®

THE WORLD'S TOUGHEST AISLE MARKING SYSTEM
INSTANTLY APPLIED WITH NO FUSS

Unlike paint, PermaStripe® is durable yet easily removed.

Aisle markings clearly show boundaries - improving safety and tidiness.

Bespoke permanent floor marking signs are instantly and immediately created with PermaCover; tough, durable and unique!

PermaStripe® is the World's most effective and durable aisle marking system.

It is the modern alternative to resin and paint helping forward thinking companies achieve 5S status.

- Installation could not be easier, simply peel back the liner and stick down, Heskins has also developed its own applicator, this enables rapid installation of PermaStripe.
- No detailed preparation is required, unlike paints and resins no fumes or solvents are emitted; the work area can be used whilst it is being applied, even in food preparation facilities.
- No curing time - you have the stripe you want instantly!
- The plain colours are a solid homogeneous construction, if scratched it does not affect the colour.
- Due to its extreme strength it will not snap if removed enabling easy workplace changes unlike paint or resin.
- Available in 50mm, 75mm or 100mm roll widths, 30m rolls for long length application.
- Available in a huge array of formats; rolls, shapes, numbers, letters, arrows and disks, we can even make to your distinctive custom requirements.
- Embossed anti-slip surface or smooth for easier cleaning.

Any shape can be configured, we hold on our shelf PermaStripe® ready cut in letters, numbers and shapes. You can however choose any shape or character you prefer. Our cutting process is accurate to 0.1 mm

PermaStripe® Smooth is perfect for clean rooms and kitchens. It does not feature the embossed surface making it easy to clean and reducing the ability to trap dirt and bacteria.

2 YEAR WARRANTY

The Heskins warranty for PermaStripe® is conditionally warranted for 2 years from product purchase. Warranty claims are only limited to replacement of PermaStripe®

The warranty does not cover items being dragged, pushed or scraped across such as pallets or transit skids.

PermaStripe® die-cut shapes

A wide range of ready cut PermaStripe® shapes allow you to create junctions and designate special areas, all to the same high quality. See the back cover of this document, and our website.

PermaStripe® factory markers

Factory markers are 430mm diameter, made from a semi-rigid, self adhesive PVC vinyl and available off the shelf in a range of prints and languages. The full range is available on our website.

Rolls 50mm, 75mm or 100mm wide

Color Range

	Yellow	(E/S)
	Fluorescent yellow	(E)
	Green	(E/S)
	Red	(E/S)
	White	(E/S)
	Blue	(E/S)
	Orange	(E/S)
	Black	(E/S)
	Photo-luminescent (glow in the dark)	(E)
	Yellow/Black chevron	(E/S)
	Red/White chevron	(E/S)
	Black/White chevron	(E/S)

E = Embossed surface
S = Smooth surface

PermaStripe® smooth has been created after demand for a line marking material easier to clean and more attractive was made. Our sleek, smooth PermaStripe has all the same benefits as our flagship PermaStripe range but with one minor difference. It does not feature the embossed surface, meaning that there are no areas on it that can trap dirt and harbour bacteria.

PermaStripe® Smooth is perfect for areas that carry heavily regulated hygiene standards. It still provides durable, 5S optimisation, with a smooth aesthetic surface that is easier to clean and would indeed compliment any area it is applied in.
