PRODUCT CATALOG EDITION 5.1

OUR STORY

We've grown far beyond what started in the 1970's as a task force to revolutionize protective equipment. Today, we protect you for life's best moments.

Our disruptive innovation paired with our inherited knowledge of heavy industries has transformed the quality of lives and businesses. Our charitable initiatives raise over \$150,000 annually to help ensure no family is left behind. The Green Forces is now the fastest-growing elite industrial community in the world.

Enter the RPB® armory, the world's most advanced front-line armor for industry professionals consisting of supplied and powered air respirators, air monitoring, filtration and safety essentials, designed to advance your safety and increase your productivity.

As we embark on a new frontier in industry, join us in helping build a better future for the new generation of elite operators and enterprises.

GLOBAL NETWORK

RPB® has a global network of distributors serviced from our Michigan Head Office and satellite offices in New Zealand and the United Kingdom.

Contact us on **(866) 494-4599 (USA)**, **+1 (248) 591 4000 (International)** or visit rpb-safety.com/find-your-distributor/ to find your nearest distributor.

Z-LINK®

**ELITE MULTI-PURPOSE
RESPIRATORY PROTECTION**

PPD® ADVANCING
YOUR SAFETY

Z-LINK®

ELITE MULTI-PURPOSE
RESPIRATORY PROTECTION

The RPB® Z-Link® is more than a product. It's a system. The most versatile multi-purpose respirator on the planet. From welding and grinding to chemical handling, the Z-Link® serves the widest spectrum of industries and applications on the market.

The Z-Link®'s large visor enables you to operate with a widened perspective. It features exceptional downward and peripheral vision combined with a visor that hinges open for free air breathing and easy communication. Engineered to advance your safety. Designed to increase your productivity.

Inspired by military innovation, our R&D Special Ops Unit has relentlessly refined every last detail. The team has traveled the world to meet with and listen to operators. Ultimately, these refinements have enabled RPB® users to work smarter, not harder. Save crucial energy, time and costs in competitive industry environments, where elite protective equipment is often overlooked.

The Z-Link® is certified to the standards below and conforms to AS/NZS 1716:2012, AS/NZS 13371:2010, AS/NZS 1801:1997.

Z-LINK+®

ELITE MULTI-PURPOSE
RESPIRATORY PROTECTION

The RPB® Z-Link+® is the result of extensive user testing in demanding welding environments. Elite welding professionals benefit from reduced downtime and fatigue and increased productivity.

As the Z-Link+® clips directly onto your main visor, you can seamlessly weld with crystal-clear vision and the ability to lift up your visor to check welds and instantly begin grinding.

The Z-Link+® includes the large RPB® ADF lens with the 1.1.1.1. rating in optical quality. The all-important fourth “1”, advanced angular dependence control, guarantees uniform shading and distortion-free vision, allowing you to work comfortably and effortlessly for hours across different angles.

In addition to the Z-Link® certifications, the Z-Link+® is certified to the standards below.

Z-LINK® ADF LENS

OPEN STATE
RPB® OCV COLOR DEFINITION
The OCV Filter range offers superior color definition in both the open and activated state, allowing the operator to clearly see LED displays on machines and equipment, as well as heat definition on the actual weld.

CLOSED STATE
RPB® OCV OPTICAL QUALITY
The OCV filter boasts a 1/1/1 optical quality rating which is the world's best. This means a clear view from a wider range of angles, reducing eye fatigue and increasing your productivity.

- 40% MORE VIEWING WITH THE RPB® OCV ULTRA ADF (110X110)**
- Viewing Area: 10.1 square inches (3.78" x 2.68")
Light state: Shade 4. Dark state: Selectable shades 9-13
 - Fast, reliable switching speed: 0.15ms at 73°F / 23°C
 - Adjustable delay from dark to light (0.2 to 0.8 seconds)
 - Weight (ADF only): 5.64 oz / 160g.
Temperature range: 14°F to 140°F / -10°C to +60°C
 - 3 year warranty
 - 2 Sensors: it is the quality not the quantity of sensors that provide the fast reaction time of the filter
 - Sensitivity and delay adjustment on case
 - Highest quality wide view ADF available
 - Constant UV/IR protection
 - Accommodates standard 4" x 5" front cover lens
 - Adapts to standard magnifying lens
 - Solar powered
 - Best optical quality in industry - 1/1/1 DIN Rating
 - Suitable for all types of electro-arc welding, including covered electrodes, MIG/MAG, TIG/WIG, plasma welding and cutting. NOT FOR LASER OR GAS WELDING.

Z4®

**ELITE WELDING
& RESPIRATORY
PROTECTION**

Protecting you for life's best moments®

Z4®

ELITE WELDING & RESPIRATORY PROTECTION

Designed with the primary focus on user comfort, the RPB® Z4® is your premium welding/grinding respirator. The head harness and visor were carefully developed for optimum weight distribution, resulting in the most ergonomically balanced welding respirator on the market!

The Z4® comprises a crystal-clear grinding visor and a flip-up welding visor which you can lift to check welds and instantly begin grinding. Both shade 5 peripheral windows and opaque window blockers are included in the standard packages.

The Z4® is fitted with our large ADF lens boasting an optical quality rating of 1.1.1.1 with the all-important fourth "1". Advanced angular dependence control guarantees uniform shading and distortion-free vision, allowing operators to work comfortably across different angles as required.

To further increase your comfort, the Z4® can also be fitted with the Comfort-Link™ padding system.

The Z4® is certified to the standards below and conforms to AS/NZS 1716:2012, AS/NZS 1337.1:2010, AS/NZS 1338.1:2012.

OPTICAL QUALITY

Z3™ WELDER

ULTIMATE RESPIRATORY PROTECTION & OPTICAL QUALITY

As the predecessor to the new, multi-purpose Z-Link+®, the RPB® Z3™ Welder combines respiratory protection with breakthrough optical technology.

Proven to deliver welding professionals with a comfortable working environment, the Z3™ Welder exceeds the demands of the most quality-conscious companies, while surpassing the most rigorous industry standards.

Advance your workplace safety with a product that boasts a range of truly unique design and engineering features. The Z3™ can withstand extreme temperatures without distortion due to the high performance nylon shell construction. The adjustable airflow disperser means that you can operate in a comfortable and fume-free breathing zone.

The Z3™ Welder includes the RPB® OCV filter with advanced angular dependence control providing uniform shading and distortion free vision to work comfortably across different angles. It features superior color definition in both open and activated states, allowing you to easily identify heat definition and displays on equipment.

The Z3™ has been rigorously tested through conventional safety testing methods in addition to field testing. It certified to the standards below and conforms to AS/NZS 1716:2012, AS/NZS 1337.1:2010, AS/NZS 1338.1:2012.

Z100™ SERIES

**LIGHTWEIGHT PROTECTION
WITH SAFETY AT THE FOREFRONT**

Z100™ SERIES

LIGHTWEIGHT PROTECTION
WITH SAFETY AT THE FOREFRONT

The RPB® Z100™ Series is the leading cost-effective replaceable and disposable armor on the market.

The Z100™ is manufactured from RPB® Zytec® Fabric. It is a lightweight hood that offers superior comfort in comparison with conventional, tight, full-face respirators. The hood protects the operator’s entire head, eliminating the need for a head sock.

Used throughout a variety of industries from grinding to brazing, the Z100™ is equally lightweight as it is economical. Without incurring significant additional expenses, operators benefit from the Z100™’s advanced safety and superior quality while increasing productivity.

Additionally, users with facial hair commonly convert to this loose-fitting respirator, without jeopardizing or compromising on protection.

ANSI Z89.1

NOVA 3®

**THE WORLD'S MOST
ADVANCED HEAVY
INDUSTRY RESPIRATOR**

NOVA 3®

THE WORLD'S MOST ADVANCED
HEAVY INDUSTRY RESPIRATOR

The verdict is in: the RPB® Nova 3® respirator has been heralded as the industry's definitive benchmark in abrasive blasting.

With breakthrough protection technology and previously unseen advanced comfort and functionality features, the Nova 3® is designed to advance safety and productivity.

For over 40 years, users have been choosing RPB® respirators as the most comfortable across a number of industries. Operators claim the Nova 3® is the lightest and most comfortable heavy industry respirator they've ever used. It's unique weight distribution design distributes the helmet's weight evenly across the head and shoulders for optimum comfort and movability.

A ratchet adjustable neck pad ensures appropriate head support. The molded inner 'Clever Fit Padding' design (patent pending) helps absorb sound, protect hearing and is fully adjustable. It allows for unique customization to correctly fit all users and is easily removable and washable.

Although many claim safety is paramount, we walk the talk. The Nova 3® has been rigorously tested in both controlled and field testing environments - the results speak for themselves. It is certified to the standards below and conforms to AS/NZS 1716:2012, AS/NZS 1337.1:2010, AS/NZS 1801:1997.

RPB®'s NV3-745 cassette lens is a unique system of one outer lens fused with five tear-off lenses which have pre-folded tabs.

1-866-494-4599 | rpbsafety.com

ISO9001
CERTIFIED COMPANY

Tough, high-pressure injection molded helmet shell, manufactured from engineering grade nylon.

Bellow seal creates a complete barrier to dust and particulates.

Large panoramic window that provides optimum downward and peripheral vision.

Cape is securely attached with 8 snap fasteners.

Streamlined air system that directs air to the breathe zone, reducing lens fogging and eliminating head chill.

Light gray helmet surface reflects heat while the vibrant green visor ensures visibility.

Ratchet adjustable padding system creates secure custom fit.

Large, glove sized latch that is easy to locate and use.

Removable visor for efficient lens replacement.

Clip on cape seal stops abrasives and dust entering the helmet.

Made in USA.*

*From local and globally sourced components.

Nova 3® shown with optional L4 light.

L4™ LIGHT

**ADVANCED HELMET
LIGHTING SYSTEM**

L4™ LIGHT

ADVANCED HELMET
LIGHTING SYSTEM

Blasting in the dark can be awkward and dangerous. The RPB® L4™ Light, minimizes workplace safety hazards, reduces downtime and ensures that you have sufficient light.

The RPB® L4™ Light provides a steady, highly concentrated output of light to your field of vision. Its high-powered LEDs produce up to 650 lumens of concentrated light output with a compact, lightweight battery pack that mounts comfortably and securely on your belt.

The L4™ Light features a low-profile design, enhancing operator control with minimum protrusion and mounts securely to the top of the RPB® Nova 3® Respirator, providing light wherever the operator looks, eliminating the safety risks and inefficiencies associated with outdated nozzle lights.

Although applications have expanded since launch, it was originally developed to overcome the global need for light to assist blasters in tanks and other confined spaces where light is scarce.

EXTRA LONG LIFE

Long lasting Li-ion battery lasts up to 4 hours on a single charge. Batteries recharge in 3-4 hours. The lightweight battery pack mounts on your belt.

1-866-494-4599 | rpbsafety.com

ISO9001
CERTIFIED COMPANY

Manufactured with durable, long-lasting materials.

Efficient, high powered LEDs producing up to 650 lumens of concentrated light output.

Mounts directly to the Nova 3® with no modification required.

*From local and globally sourced components.

NOVA 2000®

**ADVANCED ABRASIVE
BLASTING HELMET**

NOVA 2000®

ADVANCED ABRASIVE BLASTING HELMET

As the predecessor to the Nova 3®, the RPB® Nova 2000® was designed specifically for blasting, focusing on improved operator comfort to boost performance and productivity.

Featuring best-in-class hearing protection with multi-layered sound deadening foam, a streamlined air flow system and an abrasion resistant shell, the Nova 2000® meets worldwide respiratory protection standards including NIOSH, CE and AS/NZS.

Today’s high safety standards in industry environments make on-site health and safety a top priority. Non-compliance or outdated equipment can likely result in unexpected costs including business disruption, injuries to valued operators and negative effects on your company’s reputation. Year after year, the Nova 2000® has proven to minimize the risks to employees and businesses worldwide.

The Nova 2000® is certified to the standards below and conforms to AS/NZS 1716:2012, AS/NZS 1801:1997, AS/NZS 13371:2010.

Protecting you for life's best moments®

NOVA 1®

SAFER, TOUGHER
& MORE COMFORTABLE

With a robust and large flat lens, the RPB® Nova 1® boasts all the same design features of the Nova 2000® that improve operator comfort and boost productivity.

Featuring best-in-class hearing protection with multi-layered sound deadening foam, a streamlined air flow system and an abrasion resistant shell, the Nova 1® meets worldwide respiratory protection standards including CE and AS/NZS.

Today's high safety standards make on-site health and safety a top priority. Non-compliance or outdated equipment can likely result in unexpected costs including business disruption, injuries to valued operators and negative effects on your company's reputation. Year after year, the Nova 1® minimizes the risks to employees and businesses worldwide.

Between the Nova 3®, Nova 2000®, Astro™ and Nova 1®, RPB® Safety has established itself consistently over decades as the definitive market leader in the abrasive blasting industry.

The Nova 1® is certified to the standards below and conforms to AS/NZS 1716:2012, AS/NZS 1801:1997, AS/NZS 13371:2010.

NOVA 1[®] TALK[™]

**ADVANCED IN-HELMET
COMMUNICATION SYSTEM**

ADVANCED IN-HELMET COMMUNICATION SYSTEM

Communicate effortlessly and safely with your fellow blasters, pot tenders and team members, without having to stop what you’re doing.

The undisputed champion of industrial team radio, the RPB® Nova 1® Talk™ has transformed the productivity, communication and safety of operators and businesses worldwide. The Nova 1® Talk™ is a wireless communication system, ideal for users in remote locations such as crews in tanks, shipyards, water towers and any area that is difficult to access. The Nova 1® Talk™ offers users features that include push-to-talk simplicity, a noise-canceling microphone and pillow foam padding.

Toll Free on 1- 866-494-4599 as there is a chance we may be able to find a cable to suit.

A man with a beard and short hair is sitting on a wooden ladder in an industrial setting. He is wearing a green and grey protective suit. He is holding a green helmet with a black rectangular screen on the front. The background is a dark, industrial environment with metal structures and a large blue tank on the left.

ASTRO™

**THE LIGHTWEIGHT
INDUSTRY BENCHMARK
FOR ABRASIVE BLASTING**

ASTRO™

THE LIGHTWEIGHT INDUSTRY
BENCHMARK FOR ABRASIVE BLASTING

The undisputed economical champion for an abrasive blasting helmet. The RPB® Astro™ meets safety standards worldwide, including Australia, Europe and the USA.

Weighing only 2.6lb/1.2kg (excluding the breathing tube), the Astro™’s revolutionary lightweight design has proven to reduce operator fatigue and downtime.

For users in search of a flat lens respirator, the Astro™’s best-in-class cape attachment and low lifetime maintenance and parts replacement costs offer users and businesses an unbeatable value and return on investment.

And unlike other flat lens respirator manufacturers, at RPB® Safety, we don’t take shortcuts and we refuse to compromise on quality. Our rigorous production standards ensure a robust build and quality from shell to seams.

The Astro™ is certified to the standards below and conforms to AS/NZS 1716:2012.

T-LINK™

**DESIGNED TO WORK WITH
YOU, NOT AGAINST YOU!**

T-LINK®

RPB® T-LINK®. DESIGNED TO WORK WITH YOU, NOT AGAINST YOU!

Working longer stints never felt this good. Gone are the days of having to fight against a Tyvek® respirator. The RPB® T-Link® has been designed to assist you in your work, moving with you wherever you turn.

Below are just some of the features:

- The Tyvek® cover is securely attached to the helmet system ensuring it will never blow up off your head!
- The large viewing window enables you to operate with a widened perspective, featuring exceptional downward and peripheral vision.
- The soft, breathable inner-bib and extra tuck-in collar directs air down your body to aid cooling.

The T-Link®'s padded head-liner and head suspension system provides comfort and balanced weight distribution, making it feel lighter as there are no pressure points on your head. Being fully adjustable ensures the respirator fits securely and moves with your head, allowing you to work freely without having to worry about the hood getting in the way or messing up your fresh paint job. It is simply everything you could want in a painting respirator.

The T-Link® is certified to the standards below and conforms to AS/NZS 1716:2012, AS/NZS 1337.1:2010, AS/NZS 1801:1997.

T100™ SERIES

SUPERIOR LIGHTWEIGHT
PROTECTION

T100™ SERIES

LIGHTWEIGHT PROTECTION

The RPB® T100™ Series is a cost-effective disposable respirator. The economical option that provides lightweight protection and premium quality.

Used throughout a variety of industries from industrial spray painting to chemical handling, the T100™ has been designed to be robust enough to reuse but cost effective enough to discard after use.

It is manufactured from DuPont™ Tychem® and offers superior comfort compared to conventional, tight, full-face respirators. The hood protects your entire head, eliminating the need for a head sock. A large variety of hood options with different features are available.

Users with facial hair commonly convert to loose-fitting respirators so they don't jeopardize their protection. There is no fit-testing required, saving you time and money, while maintaining OSHA compliance.

ANSI Z89.1*
EN397:2003 +A1:2009
AS/NZS 1801:1997

HARD HAT
PROTECTION

* Not all configurations conform to this standard. Please visit rpbsafety.com for more details.

Large lens providing excellent peripheral and downward vision.

Impact protection lens.

Tuck-in collar directs air over the upper body to provide additional cooling.

Air duct directs the airflow to the operator's breathing zone.

Optional barrier seal for more demanding environments.

Peel-off lenses protect the main lens from chemical splash, spray drift and dust.

* From local and globally sourced components.

T150™ SERIES

**THE ULTIMATE AIR SUPPLIED
FULL-FACED RESPIRATOR**

T150™ SERIES

THE ULTIMATE AIR SUPPLIED FULL-FACE RESPIRATOR

A limited viewing area is a hazard for employees on industrial work sites, increasing risks such as tripping, falling, or even long-term eye-sight damage. Enter the RPB® T150™ NIOSH approved Type C respirator, which minimizes these risks and offers operators a superior comfort, vision and safety across a spectrum of applications from chemical stripping to spray painting and coating.

The T150™ is manufactured from polycarbonate, making it robust, yet comfortable enough for all-day protection. It has an adjustable six-point harness and thermoplastic (TPR) face seal that fits perfectly to the contours of the user's face, creating an airtight seal. It also features a panoramic lens that has been specially treated to prevent fog, scratches and acid wear and tear.

When operating in confined space applications requiring a full-face respirator, work in comfort with the knowledge that you and your team are receiving the most elite protection available.

APPLICATIONS INCLUDE

- Spray painting, coating and confined space applications
- Pharmaceutical manufacturing
- Chemical, pesticide and materials handling
- Chemical stripping
- Waste management

The comfortable nylon mesh head harness is adjustable for a secure fit, attaching via six fast release buckles.

PX4 AIR® PAPR

**THE ULTIMATE POWERED
AIR PURIFYING RESPIRATOR**

PX4 AIR® PAPR

THE ULTIMATE POWERED
AIR PURIFYING RESPIRATOR

The RPB® PX4 Air® is a robust and versatile Powered Air Purifying Respirator (PAPR) that provides clean breathing air to the full range of RPB® Safety's industry leading respirators.

Whether you're welding, grinding, painting or in a laboratory, the RPB® PX4 Air® can serve all your mobile respiratory needs.

The PX4 Air® optimizes user safety, comfort and portability. Users benefit from the safety of clean breathing air without the restriction of attached airlines, providing complete flexibility to move around as the job requires. It is NIOSH and CE certified and exceeds the requirements of AS/NZS.

APPLICATIONS INCLUDE

- Spray painting, coating and confined space applications
- Pharmaceutical manufacturing
- Chemical, pesticide and materials handling
- Chemical stripping
- Waste management
- And many more!

Long life, lightweight, Lithium rechargeable battery. Operates up to 6 hours on a single charge. Has a quick test button to view the current battery charge.

GX4 GAS MONITOR®

THE ULTIMATE
MULTI-GAS DETECTOR

GX4® GAS MONITOR

THE ULTIMATE MULTI-GAS DETECTOR

Dangerous levels of toxic gases can cause severe injury or death. The RPB® GX4® Gas Monitor gives you the complete confidence that the air you and your employees breathe is safe.

Gases such as carbon monoxide are invisible to all the human senses, yet are commonly found in industrial premises worldwide. While low-level exposure may not be immediately fatal, ongoing contact at low levels has a cumulative effect, causing serious illness and long-term health concerns. Early symptoms can be mistaken for the flu, headaches or tiredness. It is a serious problem which is commonly overlooked.

The GX4® can detect up to four gases simultaneously. It includes smart device and cloud integration capabilities enabling you to view your air quality from any device, while sensors are displayed online in real time.

APPLICATIONS INCLUDE

- Spray painting, coating and confined space applications
- Pharmaceutical manufacturing
- Chemical, pesticide and materials handling
- Chemical stripping
- Waste management

Connect to the GX4® from your laptop, tablet, phone or even network to view real time data, download logs, alter alarm points and much more.

GAS SENSORS

A range of pre-calibrated gas sensors are available including CO, O₂ and H₂S. All have a 2 year shelf life.

1-866-494-4599 | rpbsafety.com

ISO9001
CERTIFIED COMPANY

Complete quick and easy calibration checks with no set points required.

103 DBA staccato alarm.

Monitor up to four gases simultaneously.

RADEX® AIRLINE FILTER

ADVANCED FILTRATION
CAPACITY & VERSATILITY

RADEX® AIRLINE FILTER

ADVANCED FILTRATION CAPACITY & VERSATILITY

Polluted air can be the cause of major health issues and, at the very least, can adversely affect operator comfort and productivity. The RPB® Radex® Airline Filter improves the quality of the air your employees are breathing and exceeds industry filtration standards so you can be assured that your operators won't suffer the consequences of breathing contaminated air.

The filter is fitted with a large capacity, 6-stage filter cartridge that removes moisture, odor and particulates to 0.5 micron from the compressed air stream, providing clean, breathable air. The Radex® features a unique twist-and-lock wall and floor mounting system.

An optional auto drain valve is available to fit to your filter that continually removes moisture from the filter housing, increasing the lifespan of the filter cartridge.

6 OUTLET SYSTEM

Upgrade to the 6-outlet system to provide filtration to six separate airlines from one filter.

1-866-494-4599 | rpbsafety.com

ISO9001
CERTIFIED COMPANY

Quick disconnect coupler that is compatible with brands including Aro, Cejn, Dixon and Rectus.

150 psi safety pressure relief valve.

Claw coupler port.

Outlet pressure regulator provides the ability to adjust air pressure. Range 0-125 psi (04-900 2 outlet unit only).

Replacement filter cartridges have a replacement date sticker for maintenance scheduling.

Strong, robust housing.

Wall and floor mounting system.

Fitted with brass drain tap.

*From local and globally sourced components.

C40™ CLIMATE CONTROL DEVICE

PREMIUM AIR TEMPERATURE
CONTROL SYSTEM

C40™ CLIMATE CONTROL DEVICE

ADVANCED AIR TEMPERATURE CONTROL SYSTEM

Working in an environment where the temperature is comfortable is key to maximizing productivity. The RPB® C40™ Climate Control Device can heat and cool your supplied air as desired.

With the slide of a lever, your employees can switch from heating to cooling ensuring they are comfortable whether they're in the searing heat of the Arizona summer, a severe Scandinavian winter or anywhere in between.

The RPB® C40™ can cool incoming air by up to 52°F (29°C) or heat it by up to 33°F (18°C). This is achieved by simply switching the mixing lever from hot to cold. The device is lightweight and ergonomically designed to sit comfortably on the operator's hip. The RPB® C40™ pairs with most of our respirator range.

APPLICATIONS INCLUDE

- Spray painting, coating and confined space applications
- Pharmaceutical manufacturing
- Chemical, pesticide and materials handling
- Chemical stripping
- Waste management

* Only in conjunction with respirator.

LOW MAINTENANCE

Low maintenance required. The air silencers are the only parts that need cleaning or replacing.

1-866-494-4599 | rpbsafety.com

ISO9001
CERTIFIED COMPANY

Lightweight - weighing only 9.8oz (277 grams) excluding belt.

Durable belt.

Manufactured from robust materials, designed and tested for the harshest conditions.

* From local and globally sourced components.

Easily adjust the temperature using this lever.

Increase or decrease the airflow by turning the flow control dial.

Choose from a range of plugs to suit your application.

Air inlet swivels 360° to ensure the device sits comfortably on the operator's hip.

FLOW CONTROL

ADVANCED AIR TEMPERATURE CONTROL

COLD AIR TUBE

ADVANCED AIR TEMPERATURE CONTROL

The RPB® Cold Air Tube is part of RPB® Safety’s range of economical climate control assemblies. It significantly cools your air supply for optimum performance and comfort when operating in climate and environmental extremes.

RPB® 4000-01 COLD AIR TUBE ASSEMBLY

The RPB® 4000-01 is manufactured from engineering grade plastic which is extremely robust and ideal for the rigors of the workplace. It cools compressed breathing air entering respirators by as much as 32°F (18°C).

HOT AIR TUBE

ADVANCED AIR TEMPERATURE CONTROL

The RPB® Hot Air Tube is part of RPB® Safety’s range of economical climate control assemblies. It significantly heats your air supply for optimum performance and comfort when operating in climate and environmental extremes.

RPB® 4000-20 HOT AIR TUBE ASSEMBLY

The RPB® 4000-20 is manufactured from engineering grade plastic which is extremely robust and ideal for the rigors of the workplace. It warms compressed breathing air entering respirators by as much as 30°F (17°C).

* Only in conjunction with respirator.
